

3D Modeling in AutoCAD

In the AutoCAD 3D Modeling course, students will learn best practices and advanced techniques to create complex 3D models using the AutoCAD interface. This course is designed for students who are already proficient with 2D drawings in AutoCAD.

Group classes in NYC and onsite training is available for this course.

Course Outline

- 3D Foundations
- Simple Solids
- Working with the User Coordinate System
- Creating Solids & Surfaces from 2D Objects
- Modifying in 3D Space
- Advanced Solid Editing
- Additional Editing Tools
- Refining the View
- Point Clouds
- Visualization
- Working Drawings from 3D Models
