COURSE SYLLABUS

WordPress for Coders

If you already have experience with coding webpages and using the visual content management side of WordPress, this class will teach you how to take more control over WordPress through coding. You will learn how to set up a local testing server, install WordPress, create a custom WordPress theme, and more.

> Group classes (NYC) and onsite training are available for this course. For more information, email corporate@nobledesktop.com or visit: https://www.nobledesktop.com/classes/wordpress-for-coders
