Course Outline

This package includes these courses

- InDesign in a Day Course (Self-Paced) (6 Hours)
- Photoshop in a Day Course (Self-Paced) (6 Hours)
- Illustrator in a Day (Self-Paced) (6 Hours)
- Premiere Pro in a Day (Self-Paced) (6 Hours)
- After Effects in a Day (Self-Paced) (6 Hours)

InDesign in a Day Course (Self-Paced)

Learn the fundamentals of Adobe InDesign, including page layout, typography, color, and working with graphics. It's perfect for beginners who want to get started with InDesign quickly.

- Build layouts using text, color, and graphics
- Import and style both text and graphics
- Design a business card and a bi-fold brochure
- Get files ready for final output, including printing and PDFs

Photoshop in a Day Course (Self-Paced)

Learn the fundamentals of Photoshop in this accelerated class, where you'll discover how to retouch photos, remove unwanted elements, and save files for print or web. It's perfect for beginners who want to sharpen their photo editing skills in a short amount of time.

- Retouch photos with confidence
- Enhance your images by adjusting color, contrast, and more
- Design graphics that blend photos, text, and elements like logos (great for social media and beyond)
- Save your images in the right file formats for web or print

Illustrator in a Day (Self-Paced)

Learn the fundamentals of Adobe Illustrator and start creating and editing vector graphics. This course walks you through core tools and techniques for working with shapes, colors, image tracing, and more.

- Create different types of vector graphics, including icons and illustrations
- Combine basic shapes and use Pathfinders to build more complex vector designs
- Convert hand sketches or pixel-based art into vector graphics
- Blend photos with type and add vector graphics to create designs for social media and beyond

Premiere Pro in a Day (Self-Paced)

Get up to speed on Adobe Premiere Pro fundamentals in this accelerated class. You'll build the skills to organize projects, create sequences, fix audio and color, bring in B-roll, animate images, edit clips, add lower third titles, and export final videos ready for social media. It's a perfect fit for anyone who wants a quick, essential introduction to Premiere Pro.

- Learn how to edit video footage
- Clean up unwanted background noise in your audio
- Color correct your video
- Bring in B-roll (extra footage that keeps things engaging)
- Import photos and logos, then animate them
- Apply transitions
- Export your finished videos for social media sharing or client delivery

After Effects in a Day (Self-Paced)

Learn the basics of the Adobe After Effects interface, timeline, and layer animation in this accelerated training course. You'll gain the skills to create GIFs, animate logos, and work with layered files from Illustrator and Photoshop.

- Navigate the After Effects interface and get comfortable with the timeline and layer structure
- Build animations using graphics like logos, photos, and other visual elements
- Animate individual components of a logo for polished, professional motion graphics
- Import and work with layered files from Photoshop and Illustrator to streamline your workflow
- Export finished animations as GIFs or video files for use across digital platforms
