

Sketch Advanced

Take your Sketch skills to the next level and dive deeper into this popular design app. Take full advantage of the power of symbols, sync symbols and styles across documents and computers, turn designs into clickable prototypes using InVision as well as Sketch's native prototyping tools, and learn useful plugins to add features and expedite your workflow.

Group classes in NYC and onsite training is available for this course. For more information, email hello@nobledesktop.com or visit: <https://www.nobledesktop.com/classes/sketch-advanced>

Course Outline

Section 1

Symbols: Overrides & Custom Data

- Controlling Symbol Overrides
- Overriding Images Within a Symbol
- Custom Data Sources
- Masks vs. Image Fills

Symbols: Nested Layer Styles & Nested Symbols

- Using Layer Styles in Symbols
- Nesting Symbols

Smart Layout

- Using the Tidy button
- Adjusting Symbol Spacing
- Reordering Content
- Using Smart Layout for Symbols

Shared Libraries (Symbols, Styles, & Colors)

Creating & Using Shared Libraries

Section 2

Vector Drawing & Graphics Tips & Tricks

- Drawing Custom Vector Shapes
- Borders: End & Join Options

- Multiple Borders
- Multiple Ways to Rotate
- Copying & Pasting Layer Style
- Rounding Vector Corners

Creating a Clickable Prototype with Sketch's Native Tools

- Creating a Prototype
- Linking between artboards
- Hotspots
- Fixed Position Elements

Sharing Native Prototypes & Sketch Cloud Documents

Sharing a Prototype with Others (via Sketch Cloud)

Creating a Clickable Prototype with Craft (by InVision)

- Installing Craft
- Creating an InVision prototype
- Linking between artboards
- Creating overlays & fixed headers
- Updating the design
- Sharing the prototype

Plugins

How to Use Some Recommended Plugins
